Each day the course is split into three lessons of one hour each, in which the teaching staff uses a variety of modern teaching techniques to ensure that each student is able to develop fluency and confidence.

All the students undertake a written and oral test on arrival and are placed in multinational classes with students of similar level. We follow a comprehensive summer school syllabus to engage the students and maximise their potential.

The Activities

The Activities are an extremely important part of our summer school and it is also an extension of the English programme, as many of the activities are designed to ensure that the students continue to communicate in English outside of the classroom.

At MCET Summer School, every afternoon, evening as well as weekends are dedicated to the language related activities. The activities offered to the students are varied, well planned and engaging. Activities Manager is responsible for coordinating the programme and is supported by a number of activity organisers and the teaching staff participate along side the students.

Afternoon Activities

Afternoons are split into two sessions of an hour each, with a half an hour break in the middle for refreshments. The choices include; swimming, football, music, tennis or a visit to a tourist attraction.
